OSHA Docket  
Docket No. H-122  
Room N-2625  
200 Constitution Ave. N.W.  
Washington, D.C. 20210

Dear OSHA Regulators:

As I am a smoker, I feel you are trying to take away our rights. Therefore I am sending this letter to let my feelings be known in which smokers should have a designated area in which they are allowed to smoke without hassle.

American smokers and non-alike do not want our government to interfere in our workplace or in our homes. Are you trying to make our country into a dictatorship government?????

Sincerely,

*Bill Cayton*
